Statement of objects and reasons.

The University of Mysore has been established and incorporated under the Mysore University Regulation V of 1916. The need for a remodelling of the constitution of the University in certain respects has been felt by the authorities of the University. The proposals for such re-organisation which were formulated by the University authorities have been considered by the Government and the present bill is intended to implement such of the proposals as have been accepted by the Government.

The main features of the reorganisation are indicated in the following paragraphs :—

(1) There are at present two governing bodies in the University, the Senate and the University Council. It is proposed to constitute in addition an Academic Council to deal with purely academic matters. The province and functions of each of the three bodies are clearly defined in the bill; and the relation of the Faculties to the Academic Council is also laid down. The Faculties are to be constituted from among the members of the Academic Council and each Faculty will act generally in an advisory capacity to the Academic Council in academic matters falling within its purview.

(2) The laws of the University are at present contained in the University Regulation and in Ordinances covering matters of varying degrees of importance. It is proposed to classify the existing Ordinances as Statutes and Ordinances. Some of the matters now included in the Regulation are also transferred to the Statutes. The first Statutes are attached to the bill. The Senate will have the power, subject to approval of Government, to add to, amend or repeal any Statutes. Ordinances will be made by the University Council on its own motion or in the case of Ordinances relating to academic matters, on the initiative of the Academic Council. The Senate may consider Ordinances made by the Council and may assent to them

or may by a two-thirds majority either cancel them or remit them for further consideration. Ordinances which have received the assent of the Senate or have not been cancelled or remitted by it for further consideration, are to be submitted to Government for sanction. In addition, each of the governing bodies may frame rules and bye-laws regarding matters within its own special jurisdiction for carrying into effect the provisions of the Regulation, Statutes and Ordinances and for regulating its own business and procedure.

(3) Provision is made for including in the Senate four members elected from the Legislative Council and eight members elected from the Representative Assembly. The number to be elected by the outgoing Senate is to be raised from six to eight. Instead of each of the Faculties electing two members to the Senate, the Academic Council will have the right to elect four members. The strength of the Senate will be raised to 75 and provision is also made for each District Board or Municipal Council agreeing to contribute not less than Rs. 2,000 per annum for five years to the University Fund sending a representative to the Senate. Such representatives will be in addition to the strength of 75 referred to above.

(4) The strength of the University Council is raised to 15 and it will include three members elected by the Senate, two elected by the Academic Council and three nominated by the Chancellor.

(5) The Senate and the Council will be reconstituted every three years instead of two years as at present.

(6) The Vice-Chancellor has been given power to take action in any emergency which in his opinion calls for immediate action. In such a case he has to report his action to the authority which would ordinarily have dealt with the matter as soon as possible.
